

ON-SITE PREVENTATIVE MAINTENANCE

PSL provides customers with Preventative Maintenance Contracts on an annual or multi-year basis, to ensure that your equipment is performing optimally at all times. The contract can be integrated to suit your production schedule.

We offer a range of maintenance options from a single process machine, through to full process suites. Our services range from our basic level, which comprises of labour, inspection and associated costs, through to both routine and also emergency call out, which includes all parts and labour.

EMERGENCY BREAKDOWN COVER

PSL's service team can provide peace of mind cover, which quickly resolves any breakdown situation and gets your equipment back up and running, thus minimising downtime along with loss of production.
